Safety Fence

Underground warning extruded mesh / signal mesh / Underground warning mesh for marking underground

Product Description

- 1.Warning / detection:Under ground pipes as and electric lines,Oil pipes and communication cable.
- 2.CHIXIN Signal Fence is an under ground warning tape used for the marking and location of buried pipes and cables.It is laid in the excavation trench about 500mm above the cable or pipe line.During future re -excavation works,the highly visible band will alert excavators to the pipe/ cables below.
- 3.CHIXIN manufactures underground warning meshes for applications in civil engineering that require buried services and utilities to be marked and protected when buried and that provide a visual warning to rogue excavations.

Safety Fence

Product Description

- 1、BR type is a UV stabilized fence with rectangular mesh openings designed.
- 2、Strong HDPE plastic resists wind damage and remains flexible in freezing temperatures.
- 3、Slow wind and create drifts for snow storage or where they will not interfere with roadways,driveways,or runways.
- 4、Flexible and easy to handle.
